### THE INSIDE STORY

Immigrants and explorers. Loggers, traders, millers, merchants, farmers with crops, and cattle. Pioneer spirits stopped, stayed and started working at the port of Winona; an island city cradled by the Mississippi River on one side, towering limestone bluffs on the other. Winona connected the Midwest to the world, centered in a vast and fertile land where labor was a way of life. Henry Behrens, born in Germany, came to America in 1867, ventured to this bustling river town, was married, had a son they called Henry J and played the role of carpenter and contractor.

### WHEN THERE IS WORK TO DO, TOOLS ARE NEEDED

This was a hard-working, thriving community and Henry opened a hardware store on Third and Grand to serve it. On the second floor of this store, Henry J, then 14 years old, tinkered and played with metal, recognizing new ways to make his father's customer's lives easier. With the "Cyclone Spinner" created to help people wash their clothes, Behrens Manufacturing was born. Innovation in its earliest form.

### A HANDCRAFTED HERITAGE MADE IN THE USA

The company and its products have stood the test of time. You can see the same workmanship in the details. You'll feel the continued strength and confidence in the materials. You'll recognize the true authenticity and unmatched quality melded out of American pride.

Behrens carries on. While the products we create today still help the world work and get organized, today our purpose transcends function and surpasses utility. From the tubs that hold the Farmer's Market's first blossoms to the pails that gather sands at the lake and hold cold beer... our greatest passion is to inspire, to bring joy and add beauty.

# FORGING THE FUTURE

Historically, the most important properties of steel were durability, strength and its ability to be shaped into many useful products. Today, while those aspects are still important, there's more that matters.

## BEHRENS TENETS OF CIRCULAR DESIGN AND MANUFACTURING

### QUALITY MATERIALS

We start with intentional use of materials that can be repurposed, recycled or biodegraded. It cuts down on the need for new virgin materials, reduces energy consumption, and removes certain materials from the waste stream.

### CYCLABILITY

Behrens designs and engineers with the end in mind, considering how a product will be recycled at the end of its functional use. The goal: not having our products end up in landfills.

### MINIMIZING WASTE

We ensure our waste is removed responsibly and upcycled back into raw material, creating the opportunity for it to be turned into new material repeatedly.

### DISASSEMBLY

We design products that can be taken apart, recognizing the value of each component and its cyclability.

### GREEN CHEMISTRY

We respect the planet through the careful use and application of chemicals to reduce or eliminate the use of hazardous substances.

### REFURBISHMENT

Many of Behrens products can be maintained via repair or with replacement parts, extending their use and lifecycle.

### PARTNERSHIPS

We partner globally and domestically to resource materials from socially responsible suppliers and organizations that educate and teach consumers about the qualities and types of products that can be recycled and upcycled. We steward sustainable practices and join in partnership with global nonprofit organization, Metal Recycles Forever.

### PURPOSEFUL PACKAGING

Packaging is designed and made of materials that can be repurposed or recycled or simply biodegrade.

### DURABILITY

Products are made of 100% galvanized steel, making them stronger and longer lasting.

### VERSATILITY

Our products easily adapt to style, gender, activity and purpose.

## STEEL IS SUSTAINABILITY.

Highly durable, weather, chemical and rodent resistant Behrens products are 100% recyclable. When metal products reach the end of their useful life, the materials are simply collected and recycled, again and again, with no loss of their inherent properties.

Abandoned steel objects such as ships, oil rigs, and more are used to create artificial reefs to boost sea life and are a boon to ecological efforts.

We manufacture responsibly, preserving the earth's natural resources, reducing energy consumption and CO2 emissions.

## THESE ARE PRODUCTS THAT RESPECT THE PLANET.

## NOT ALL STEEL IS CREATED EQUAL.

Behrens steel products are more durable than plastic, made of 100% sustainable materials and resistant to

SUSTAINABLE

RODENTS

RUST

ODOR

## DESIGNED FOR CIRCULARITY

There isn't anything like it. Products made of steel are infinitely recyclable. Using the Metal Recycles Forever™ mark, the trusted global authority, is paramount to informing and helping consumers better understand the key role they have to play in keeping steel in the material loop by recycling their products at the end of their useful life. No ambitious language or clever wording required, just a clear statement that metal is forever, placing Behrens at the heart of the circular economy, working as one to close the real recycling loop.

GALVANIZED STEEL

# MINI TRASH CANS

MULTI-USE

*Be Creative!*

These Mini Trash Cans store and organize your things in space-savvy ways. The possibilities are endless!

These Mini Trash Cans are the perfect replica of their larger Behrens counterparts

Design your work area so there is a place for everything – pens, pencils, business cards, eye glasses and other work accessories at your fingertips – withing easy reach.

**MADE OF QUALITY GALVANIZED STEEL**  
More Durable Than Plastic. Kinder to the Planet.

METALWARE CLASSICS™

# Cans

**HOLD UP**, these products are built to last. Made with the highest quality galvanized steel, interlocking seams provide superior strength and offset bottoms keep cans off the ground. From yard waste to trash or carrying decorative plants, they work hard and look good around the home, farm, shop and patio.

## ANATOMY of TRASH/UTILITY CANS

### METALWARE CLASSICS™

#### BEHRENS PRODUCTS ARE BETTER DESIGNED

- Pierced and curled drop down, solid steel handles
- Wired top rim and corrugated body for extra rigidity
- Raised bottom with stamped ribs for strength
- Double seamed, with deep swedging for superior structure
- Bottom swedge is an anti-lock bead to prevent cans from sticking together when stacked
- Cans available in multiple sizes: 10, 20 and 31 gallon

#### THE BEHRENS DIFFERENCE

- Made in the USA
- 100% recyclable
- 100% galvanized steel
- More durable and longer lasting than plastic
- Functional versatility for multiple uses

**BUILT TO LAST**  
weather, chemical & rodent resistant

SUSTAINABLE

RODENTS

RUST

ODOR

#### QUALITY METALWARE™ LOCKING LID CANS

- Heavy gauge steel wire bails for portability ease
- Fitted with lid and locking riveted ears
- Multi-use
- More durable and longer lasting than plastic
- Keeps rodents out
- Locking lid feature keeps the lid on even when tipped over or attacked by an animal
- Ideal for pet food, bird seed, shop rags, fireplace ash storage.
- Available in multiple sizes: 6 and 10 gallon and in embossed Feed & Seed designs.
- Embossed Behrens lids included

#### GALVANIZED SHEET STEEL

Coils of sheet steel are galvanized at the mill. Coating thickness is more consistent. Sealed seams provide water and proof properties and protection from leaks.

**V.S.**

#### HOT DIPPED GALVANIZING

After the metal container is constructed, it is dipped in a bath of molten zinc to coat and seal the shape. Provides protection from rust corrosion as well as seals the product to hold liquid.

COMFORT GRIP™

Patent-Pending  
SLIP-ON HANDLE GRIPS

**IT'S ALL IN YOUR HANDS** – It isn't that the work gets easier. It's that you get smarter, recognizing innovation that stealthily improves your daily routine. Long lasting, extremely durable, slip-on handle grips, for example. A nice choice of color, a variety of sizes, they're removable, transferable and of course, stay centered. 100% silicone because we're serious about saving the planet as we provide the little things that help you get the job done.

REDUCE HAND FATIGUE  
WHEN CARRYING HEAVY LOADS

100% Silicone – More durable, and more ocean-friendly than plastic

Available in 2 sizes to fit pails, buckets, tubs, cans, and more!

Can withstand a low temperature of -22 degrees F / -30 degrees C  
Can withstand a high temperature of 446 degrees F / 230 degrees C

Fire-proof level 94HB

Ergonomic finger molds for better gripping

Light-weight and flexible

Food safe / Dishwasher safe

Weatherproof

Fade resistant

The perfect little accessory for DIY's, plumbers, handyman, handywomen, gardeners, fishermen and women, campers, pet owners, homeowners and more

# Signature Collection

The son of a hardworking hardware store owner, Henry Behrens was a curious boy. He tinkered and played in his father's store in Winona, Minnesota. His materials were his metal and motivation; combined to make life better for this thriving, industrious town. And in this spirit, Behrens' Signature Collection was inspired. Tried and true classics, revitalized with color, details and today's intelligent materials.

# Watering Cans

## ALWAYS FUNCTIONAL,

created with purpose, yet somehow, this watering can has become so charismatic. Irresistible rust resistance steel and slightly vintage, yet recently reinvented with 100% solid white birch, enameled red handles; it was time to pitch the plastic. Available in four sizes, a long-lasting, element-enduring classic for every potting shed, porch and garden.

# Washboards & French Vases

## THE MODERN FARMHOUSE

**ALLURE,** French vases adorned with flowers and washboards suitable for home decoration, jam bands and doing the laundry like they used to!

### MISCELLANEOUS

- Highest quality specialty items for multi-purpose uses
- Functional and/or Decorative
- Built to last regardless of application
- Sealed for wet or dry contents
- 100% Recyclable, made with 100% Sustainable Materials

# Compost

## THE THINGS THAT MATTER MOST.

Your people. Your planet. And because you care, you're making changes. And the little you do, from putting a pause on the straws to changing food containers and cleaning supplies add up for greater impact. So the next step? Composting. It's how you turn every day kitchen scraps into garden gold, create love instead of landfill and really make all the difference in the world.

# ANATOMY of COMPOSTING

## SUSTAINABLY SUPPORTING EMERGING TRENDS

Americans produce over 2 billion tons of food scraps every year!

Behrens offers 1.5 and 4 gallon aged galvanized  
**INDOOR KITCHEN COMPOSTING PAILS**

as well as 20 gallon galvanized steel with lid and feet  
**OUTDOOR REFUSE COMPOSTING CANS**

Global compost market is expected to  
**GROW 6% BY 2022<sup>1</sup>**

In just the past five years, the number of  
communities offering composting programs has  
**GROWN BY 65%<sup>2</sup>**

If food waste were a country, it would come  
in 3rd following the US and China for  
**IMPACT ON GLOBAL WARMING<sup>3</sup>**

Composting will curtail the amount of  
rotting food in landfills releasing methane,  
which has a greenhouse gas equivalency  
**72 TIMES THAT OF CARBON DIOXIDE<sup>4</sup>**

The benefits of home and community  
composting sequesters carbon in the  
soil (rather than putting it in the air by  
incinerating waste) and limits methane by  
**KEEPING WASTE OUT OF LANDFILLS.**

Behrens Compost Cans are weather, chemical and rodent resistant,  
odor-free, more durable and longer-lasting than plastic.

**THEY CAN BE RECYCLED WHEN THEY'VE OUTLIVED THEIR USEFULNESS.**

METALWARE

### WEATHER RESISTANT AND RODENT PROOF

Galvanized steel will not rust and tight fitting lid with vents prevent rodents access.

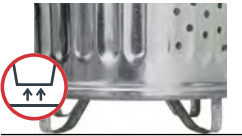

### MULTI-USE, REDUCE LANDFILL WASTE

Safely destroys yard, garden and household waste, 100% recyclable.

### DURABLE AND LONG LASTING

Galvanized steel with deep swedging adds strength.

### INCREASED STABILITY AND PERFORMANCE

Vent holes allow for air flow and drainage, 4 legs lift can off the ground and provide increased stability.

### MADE FROM SUSTAINABLE MATERIALS

100% of Behrens manufacturing scrap is returned to be recycled and converted into new steel products everyday.

## OUTDOOR REFUSE COMPOSTING CAN

MATERIAL: Galvanized Steel

STOCK #	PRODUCT DIMENSIONS	CAPACITY	MIN MASTER
RB20K	H 28.75" W 17.75" L 17.75"	20 gal	6

\*Frequent use as a rubbish burner will remove the protective galvanization layer and result in corrosion of this product.

TO ORDER: 1-800-657-4939 | BEHRENSMFG.COM

## Garden

**THERE IS NOTHING GLAMOROUS** about the role these products play. Functional objects, they live in dirt and endure the elements, yet within them, inspiration occurs. Seeds take root. Life gets tidy. Nature discovered is awe-inspiring, clever, eternal.

# ANATOMY of GARDENING

HOME INDUSTRIALS™

## CONCEPTED, DEVELOPED AND DISTRIBUTED OUT OF WINONA, MINNESOTA

- Superior, aged, vintage styled, galvanized steel
